

Dear Colleague and Friend,

After the success of the first year of the online training in Gerontology and Geriatrics, I would like to inform you of the launch a new programme entitled:

**“AFMEE [Africa - Middle East & Europe] eTRIGGER”**  
under the auspices of the  
**International Association of Gerontology & Geriatrics - World (IAGG-W).**

The new programme consists in 12 monthly sessions lasting 3 hours each.

Each month’s session is dedicated to a key topic in geriatrics or gerontology, and is divided into 3 individual hours, each addressing one aspect of the overall topic.

Each individual hour comprises a keynote lecture of 20 minutes, a culturally adapted case presentation of 10 minutes, then 20 minutes of discussion with the trainees about the topic.

The students are healthcare professionals or students caring for older patients and come from all backgrounds (i.e. not only physicians, but also nurses, social workers, physiotherapists etc).

An IAGG-W diploma is awarded at the end of the programme to the successful trainees

**The second edition of the AFMEE e-TRIGGER programme will begin on 26<sup>th</sup> September 2024.**

I would be grateful if you could forward the enclosed information leaflet (see enclosed leaflet) to all your students, colleagues and friends who might be interested in participating, or any students who would like to register.

Additional information, and the online registration form can be found on our website:

<https://afmee.iagg-fge.org/application-registration/>

<https://iagg-fge.org/>

**Thank you**

Prof Jean-Pierre Michel (University of Geneva)  
Director of the IAGG Federation of Geriatric Education
