

# Substantive Consultant in Stroke Medicine

UHCW has an exciting opportunity for a substantive Consultant in Stroke Medicine to join our exceptional clinical team. We are a stroke centre well placed in a Regional Neurosciences Centre with strong working relationships with Neurology, Neurosurgery, Neuroradiology, Cardiology and Vascular Surgery. We invite applications from a diverse background for specialty lead tailored job planning to, including:

- Neurology
- Care of the Elderly
- Acute Medicine
- Rehabilitation

UHCW is an innovative Trust which actively encourages professional growth and development within a supportive Environment.

It is an exciting time for UHCW with plans for future services including the development of a Stroke thrombectomy service

- An established and robust thrombolysis pathway, allowing paramedics to bring FAST positive patients from the county to UHCW ED with a pre-alert.

- Mechanical thrombectomy is performed through cohesive working at both UHCW and UHB, with thrombolysis of 15-20% of all strokes
- Access to 7 day Clinical support services
- Access to a very active research centre which participates in National and International trials, providing opportunity to develop your own research

As one of the largest teaching Trusts in the UK working with Warwick Medical School, rated as good by the Care Quality Commission we boast some of the most modern facilities in Western Europe and are renowned for being at the forefront of research and innovation.

Criteria on Relocation packages available on request.

**We are more than a hospital. We are building a better future. We are UHCW.**
